The mock up is a little bit different

WIPOV

🔍 ENG ▾

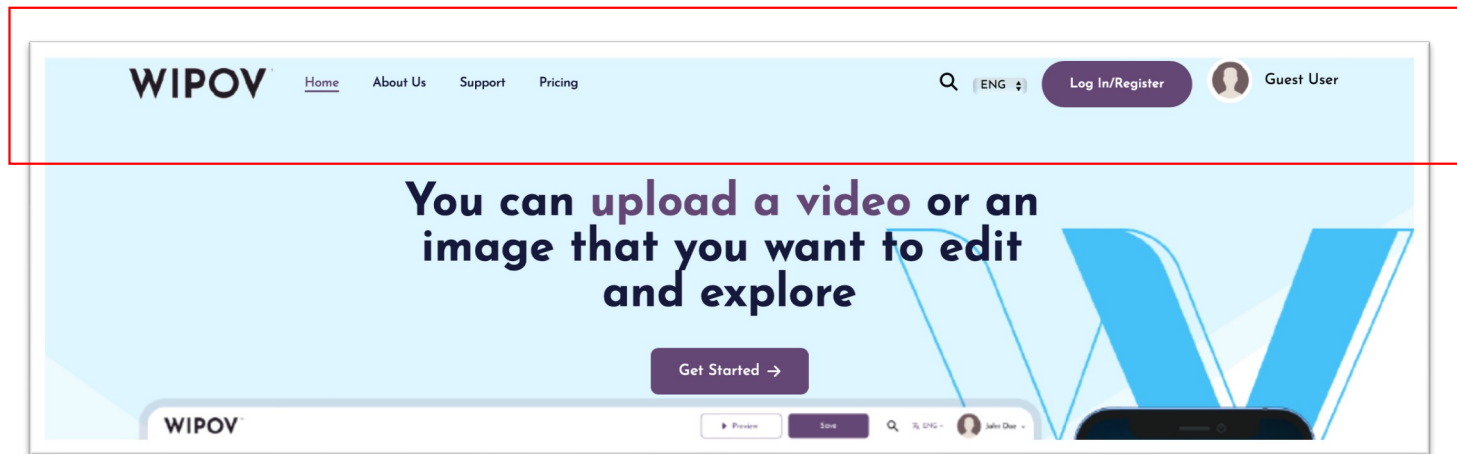

I don't see the pop up of pages: 19, 20, 21

Can the top bar always stay still while you scroll the page? So that the page scrolls down and the menu always remains available

To make you understand, I'll say something like this example, that the menu then remains fixed at the top and the page scrolls below

<https://65.109.80.148/cattedra/it/corredo-scolastico-le-famiglie-hanno-scelto-la-via-del-risparmio>

On the home page, can the top menu, when you scroll down, become a fixed menu bar at the top, like the other pages?
To make you understand what I mean, I'll say something like the following example:

<https://easyraypro.com/efiere/>
